1. This	<ol> <li>This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.</li> </ol>								
2. This	2. This REPORT consists of a total of sheets, including this cover sheet.								
3. This	report is also acco	mpanied by ANNEXES, compr	ising:						
a.	(sent to the	applicant and to the Internation	nal Rureau) a total of	sheets, as follows:					
	a. (sent to the applicant and to the International Bureau) a total of sheets, as follows:  sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or								
	sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).								
•	sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.								
b.									
	, containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).								
	report contains inc	lications relating to the following	ng items:						
$\boxtimes$	Box No. I	Basis of the report							
	Box No. II	Priority							
	Box No. III	Non-establishment of opinion	n with regard to novelty, inven	ntive step and industrial applicability					
	Box No. IV	Lack of unity of invention							
	Box No. V  Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement								
	Box No. VI	Certain documents cited							
	Box No. VII	Certain defects in the interna	tional application						
	Box No. VIII Certain observations on the international application								
			Date of completion of the	his report

	Statement Novelty (N)  Inventive step (IS)	Statement  Novelty (N) Claims Claims Inventive step (IS) Claims Claims Claims Claims	Novelty (N)   Claims   1-12	

2. Citations and explanations (Rule 70.7)

Document 1: JP 4-323825 A (Wacker-Chemitronic G. fur Electronik-Grundstoffe mbH.), 13 November 1992, entire text; all drawings & EP 0497104 A1 & DE 4103084 A1 & JP 8-21570 B2

The invention set forth in claim 13 lacks novelty in the light of document 1 cited in the international search report. The "member which brings about change in the flow of etching solution between the aforementioned adjoining wafers" corresponds to the supporting columns of the insert member set forth in document 1.

The invention set forth in claims 1 to 12 is not disclosed in any of the documents cited in the international search report, and is therefore novel. In particular, the "non-rotating member" is not disclosed in document 1, which is acknowledged to be the most closely related prior art document.
